OUR SERVICES

Hospital Performance Improvement with OpsGUARD™

Operational Excellence. Elevated.

The OpsGUARD Suite is a comprehensive hospital technology platform designed to drive meaningful hospital performance improvement through data, automation and standardization. This digital platform works for you from the operating room to the executive dashboard. OpsGUARD gives hospitals the visibility and control needed to achieve better outcomes.

How OpsGUARD Drives Hospital Performance

ProcessGUARD™
Automates and standardizes operational audits

AssetGUARD™
Reduces downtime and tracks asset efficiency

InsightGUARD™
Surfaces real-time KPIs and team metrics

Together, they improve team accountability, and compliance readiness for your hospital. This further supports cost-saving initiatives with data-driven insights.

Why Does Your Hospital Need OpsGUARD?

To know more. And do more. OpsGUARD is a mobile-friendly, cloud-based customizable platform built for hospital systems of all sizes. It streamlines operations, reduces costs, and optimizes workflows by uniting people, processes, and data to enable operational excellence at scale.

With OpsGUARD

- Combines operational auditing, asset management, and analytics in one suite.
- Boosts productivity and aligns with key hospital performance metrics: fast, focused, and effective.

With traditional analytics

- Every vendor has a different dashboard that needs to be checked individually to get insight on their product.
- Requires figuring out what reports you need, hunting them down, and manually compiling data just to answer a single question: slow, complex, and inefficient.
